Ovadia corp.

Ring Klik™ displays by Ovadia provide you with a modern and elegant presentation for your rings. The curved top pad holds your ring at the optimum angle so it appears as if your rings are floating above the display. The Klik™ holds any ring size from 3mm-12mm and also works well with stacking rings. Ring Klik™ displays come in a variety of frame sizes, heights and colors to allow you to customize your displays for your branding.

Ring Klik™ displays can hold any size ring from 3mm to 12mm. They are also great for stacking rings. This feature gives you the option to show off multiple size rings at once in the same display. **Oro-Lite holds 3mm-12mm**
Fabric holds 3mm-10mm

The curved pad....

The most important feature of the Ring Klik™ display is flawless visibility of your ring. The ring is gently, yet securely, held in place while showcasing any size width of shank from 3mm-12mm every inch. The display features a beautifully curved top pad which compliments, and shows off your jewelry. The Klik™ holds your ring in place while giving it the illusion it's floating.
